harmony

Logo

Our logo consists of a black cat, resembling spilled black coffee from a cup. The fluid form of the cat is paired with a content expression that gives the brand a cozy and warm feeling, symbolizing that our little friend is as harmonious as one can be. Paired with our signature colors, we strive to show our unique and quirky style.

Logo

Sophora's logo is simple, clean, and minimalistic - just like their medical organic products. The formula is made with carefully picked ingredients by a team of cosmetic and medical experts. Our design strives to bring their vision to light, making a recognizable packaging to bring light to their quality. The unique blend of soft colors will make you feel as fresh, clean and sparkling as your skin,

Gradients

Sophora's design consists of recognisable gradients that appear in all of their package designs in a variety of colors based on the type of product. The gradients are inspired by the letter S - which also appears in their symbol. The negative space in the gradients forms the letter S, while the colors blend into a shape that looks similar to a swipe of a product on your skin.
